About the Center for Enriched Living

Since 1968, the Center for Enriched Living (CEL) has ensured that people with Intellectual and Developmental Disabilities (IDD) are included in the community, achieve personal success and enjoy a good quality of life.

At CEL, members are part of a dynamic community where their voices are heard, choices are respected, and their hopes, wishes, and dreams are pursued. CEL members come from a variety of settings – homes, schools, and area agencies where people live, work and attend day programs. CEL has no geographic boundaries and members hail from Chicago and its 27 surrounding townships. CEL is open seven days a week for teens, adults and seniors. Members can choose to participate in more than 60 different outcome-focused programs that cover a wide variety of interests and budgets and focus on social, recreational, educational, and employment opportunities. Because 84% of CEL members are at or below the federal poverty level, CEL keeps its fees low and offers scholarships for all programs.

Programs focus on three areas of need:

1) Social connections to friends and community, addressing social isolation that is prevalent for people with IDD.

2) Continued learning so that when school ends at age 22, the drive to gain knowledge and grow from new experiences never ends.

3) Finding community-based paying jobs that meet the needs, skills and interests of the individual employment candidates. This effort will reduce the high unemployment rate (85%) for this demographic.

CEL became an independent agency in 1984 and now serves approximately 500 members annually within its 20,000 square foot facility in Riverwoods, IL. Universal Design concepts are utilized throughout the building, ensuring that everyone, no matter their ability, can navigate and use CEL with greater ease. Additionally, we have added virtual programming to our program offerings during the current COVID-19 pandemic, and it is expected to be a permanent addition to traditional CEL program offerings. Virtual programming will allow participation for members outside of the Chicagoland service area, leading to expansion of participation and accompanying funding needs and opportunities.

CEL has an annual operating budget of approximately $3.3 million, $2.3 million of which is raised through philanthropy (i.e. contributions, events and grants). CEL does not receive any federal or state funding to support its programming, allowing greater flexibility in program design and adjustment in order to best serve its mission. Member fees comprise 23% of the annual budget. (Typically this percentage is higher pre and post COVID.)
The Center for Enriched Living seeks a passionate philanthropic leader to serve as its next Director of Development, following the impending retirement of the current Director after 14 years. The role reports directly to CEL’s CEO, Harriet Levy.

The Director will lead a high functioning team responsible for effective management of a comprehensive philanthropy program and will concurrently manage a portfolio of high potential donors, including board and committee members, for cultivation, solicitation and stewardship. The Director of Development will drive the organization’s strategic philanthropy goals and provide overall vision to individual giving (including campaigns), planned giving, events, grant development, corporate partnerships, development operations, and a broader philanthropic engagement strategy, ensuring that philanthropy adds even further to the margin of excellence which CEL provides to its members and members’ families. The organization is poised for growth in membership and funding due to new virtual engagement opportunities presented during the current pandemic. The next Director of Development will view changes and challenges through the lenses of opportunity and growth, and lead their team to success with an enthusiastic and inclusive style.

The Director of Development will work closely with the CEO and Board to determine annual philanthropic goals, including strategy and follow-through steps to achieve or exceed them. The successful candidate will collaborate with staff and leadership, peers in the development field and other departments, volunteers, funders and stakeholders. A strategic, respectful, and confident mindset is essential.
