For over 70 years, Envision Unlimited (Envision) has served people with disabilities across all ages, abilities, and backgrounds. Today, a wide array of home and community-based programs benefit over 2,000 individuals across the state of Illinois. Envision provides day programs, community living services, employment services, a foster care program, and mental health services.

Envision holds themselves to the highest possible standard. They voluntarily invite regular independent evaluation to ensure that they successfully address their clients’ and families’ unique needs. Across the 14 consecutive surveys offered since 1978, Envision received the highest possible scores from the Commission on the Accreditation of Rehabilitation Facilities (CARF). Envision measures success by program participants’ (called members) progress, as they help children and adults realize self-identified goals and objectives. Above all, Envision is an advocate for the disability community. They believe all individuals, given the right opportunities, are capable of achieving great breakthroughs and leading lives of choice, independence, and inclusion.

Throughout its history, Envision has promoted change and propelled innovation in the field. As an Illinois organization, the main geographic service area is currently the Chicago Metropolitan area, although services are provided in 22 counties. However, the future of the organization lies wherever individuals and families need services, including outside of Illinois. The human resources function has grown as the institution has absorbed and aligned with other entities. The most recent merger (2018) grew the employee base by nearly one-third, and the total enterprise grew to 700 employees, nearly half of which are represented by SEIU Local 73. Chief Executive Officer Mark McHugh has served as President and CEO since 2015 and brings a visionary approach to best practices and advocating for individuals and families with disabilities.
